MINING, BUSINESS AND STOCKS

ANOTHER GROUP AT YERINGTON

Promising Copper Proposition Taken up by Syndicate of Well Known Salt Lakers.

NEW COMPANY TO BE FORMED.

Is Known as the Copper Deposit-Movements of Colorado Capitalists in Nevada Camp.

In the near future, another strong Salt Lake company will undertake the development of Yerington, Nevada, copper property. Not long ago, J. D. Wood, Col. E. A. Wall, Walter C. Orem, John Dern, Widsor V. Rice and Frank J. Hagenbarth acquired a group of eight claims theoretically located at a very advantageous point on the geological map of the district, inasmuch as the claims shoulder up against the Bruestone on the north and the Mason valley on the south.

The group will be known hereafter as the Copper Deposit, and it is the inas the Copper Deposit, and it is the intention to shortly inaugurate a vigorous campaign of development there.

The Bluestone mine is considered to be one of the big properties of the Yerington camp, engineers recently having estimated that it contains 1,000,000 tons of ore which will average better than three per cent copper. The recent disclosures in the Mason valley mine leave no doubt about that property being one of magnitude. Being sandwiched in between the two, the promoters of the Copper Deposit group feel assured that there is no escape from making a winner out of the undertaking.

dertaking.

One of the newly organized companies which has begun development work at Yerington, is one backed by Colorado capitalists. This concern has acquired a property situated down in the valley southwest of the domains controlled by the Newda Douglas company, where it the Nevada Douglas company, where it is expected a continuation of the Douglas ore bodies will be encountered by sinking a shaft. The Colorado syndicate is assembling equipment and will shortly begin a very active campaign.

SILVER KING SOLD. Stock Brought Out During Forenoon Calls of Mining Exchange.

Calls of Mining Exchange.

Silver King supplied one of the features of the forenoon trading on the floor of the Salt Lake Stock & Mining exchange today. The stock sold at \$27 at the beginning and went down to \$20 at the close. Lower Mammoth did business at \$2; while Ontario and Daly were active at higher prices. There was considerable bidding for Ely Witch stock, but none sold. Star Consolidated, Uncle Sam and Yankee Consolidated were on the active list; while Mountain Lake displayed more strength than it did yesternday.

it did yesternlay.

The closing quotations and sales were:

ONLY A JAIL FOR PUGS. Yerington Business Interests Want no

Fistic Carnivals. A story comes from Yerington, Nev. to the effect that some San Francisco promoters of fistic exhibitions recently addressed the members of the cham-ber of commerce of that place asking what the camp would put up for a

what the camp would put up for a prize fight, requesting an answer by wire. The communication received by the Yeringtonites contained the fol-

the Yeringtonites contained the following:

"This will be worth millions to your camp as an advertisement. All the Nevada camps are having them—look at Goldfield and Tonopah, and Bullfrog and Searchlight and Ely. If you will put up liberally we will give you a mill that as an ad for the camp will knock the stuffing out of the event Tex Rickard promises to pull of in Ely next spring."

The chamber of commerce instructed the secretary to "turn them down cold; we don't want any of that sort of ruffianism here."

On the day following the receipt of the San Francisco communication the secretary of the Yerington chamber wired:

the secretary of the Yerington chamber wired:

"Letter received. Nixy—no opening here for your art. Only thing chamber will put up for prize fight is a jail, with ironelad guarantee of bread and water for 30 days. Yerington is not doing any mining above ground and doesn't believe in scandalous advertising. Got Ely skinned a mile for copper and willing to let her have all film-flam advertising she can get from prize fight. Yerington has got the greatest copper deposit in Nevada. Greatest opportunities. Glad hand to all honest miners and prospectors. Marble heart to all brands of film-flammers—see? This is not confidential. Pass it up to your local newspapers, so the public may know, and Yerington will remember you all in its prayers."

WANT THE SMELTERS.

Grantsville People Want Them Located Near Their Town.

Special Correspondence. Grantsville, Tooele Co., Jan. 8.— Last Monday evening a mass meeting of citizens was called in the assembly hall of the academy with James L. Wrathall in the chair. This meeting had been called at the instigation of Dr. Will Ellerbeck of Salt Lake, who was present to represent the Ellerbeck brothers. About one year ago these was present to represent the Ellerbeck brothers. About one year ago these enterprising men took up some lime rock quarries on the north end of the Strawberry range of mountains about eight miles in extent and about six miles northwest of our town and have had surveyors and men working there all the time making levels and clearings for cement works.

had surveyors and men working there all the time making levels and clearings for cement works.

Now as an inducement to the smelting companies which desire to retire from the Salt Lake valley Mr. Ellerbeck stated that he would be willing to furnish quite a stretch of ground for smelter site purposes, providing the people here would give other inducements making it possible for them to locate in this vicinity.

Dr. Ellerbeck spoke of the importance of having the smelters located near Grantsville and the benefits which its citizens might derive therefrom. It was pointed out that Tooele county has more waste and desert land than any other county in the state which is of no material use whatever only for such purposes. It is evident that the citizens of this town are heartly in sympathy with the movement and as evidence of it a committee was appointed to walt on the officers of the smelting companies in Salt Lake. It consists of the following persons: Bishop A. K. Anderson, S. W. Woolley. Ray Rowberry, James L. Wrathall, E. T. Woolley. The following committee was then appointed to consult the citizens: Gustave Anderson, J. P. Wrathall, John Rydalch. The meeting was then adjourned subject to call of the chairman.

FRISCO CONTACT.

New Compressor Plant and Machine

Drills in Operation. Word comes from the Frisco Contact mine at Frisco, Barver county, to the effect that the new compressor is in operation and that four machine drills are being used in pushing development

Manager Rohlfing has placed an order with a local machinery firm for a new solsting plant, which is to supplant the one now in use, and also for two 65-horse power boilers. As soon as the new holst arrives the old one will be moved to shaft No. 2, where it will be operated.

GRAND CONTRAL CASE.

Taking of Testimony Closed and Arguments Begun.

The taking of testimony in the Mammoth, Grand Central case, which is receiving the attention of Judge Marshall in the United States district court, has been closed. This morning arguments began in the Jong-drawn-out controversy, Judge Dey Deaking for the Grand Central, while Judge R. N. Baskin and Atty, John M. Zane spoke in behalf of the Mammoth company, Others who will likely be heard in the case are Judge W. H. Dickson and Judge H. P. Henderson for the Grand Central and Judge C., S. Zane for the other litigant. It is doubtful whether the arguments will all be in by the close of court today. close of court today.

NEWHOUSE BACK FROM EASTERN TRIP

Was Accompanied From New York by His Chief Engineer, M. M. Johnson.

LATTER VISITED COBALT, ONT.

Makes Favorable Report on Nipissing -The King Edward Property.

Samuel Newhouse, accompanied by his chief field representative, M. M. Johnson, returned from the east last night. When seen this morning, Mr. Newhouse declared that he had no min-

Newhouse declared that he had no mining news of any particular importance to impart, yet as far as he knew everything is moving along smoothly and satisfactorily at all the properties being operated under his direction.

Mr. Johnson has just come from the Cobalt district in Ontario, where he went to look over the King Edward property taken up sometime ago by Mr. Newhouse. Incidentally, he took a look at the famous Nipissing mine, which has been in the lime light since the sensational attack made upon it by Daniel Guggenheim, the executive head of the American Smelting & Refining company. Mr. Johnson expressed the opinion that the Nipissing is a meritorious proposition and it will make good. Of the King Edward he states that there is five feet of milling ore in the King Edward shaft which carries an average of nearly 200 ounces of silver to the ton. In the Watts property a vein 12 to 14 inches wide has been exposed, which averages over 2,000 ounces to the ton.

A cross-cut is being run through the

posed, which averages over 2,000 ounces to the ton.

A cross-cut is being run through the property which will cut a number of other velns. A large amount of ore is being mined and prepared for shipment and the ore house is full of high grade ore. Jasper McCaskel, formerly of the Daly West mine at Park City is in charge of the mine as superintendent and has a force of men engaged in installing a new compressor plant. stalling a new compressor plant.
Tomorrow, Mr. Johnson will strike Tomorrow, Mr. Johnson will strike out for Yerington, Nevada, to inaugurate a more vigorous camprign at the property of the Western Nevada Copper company. All the money necessary to place this proposition on a sound footing has been raised and from now on things will fairly hum.

MACVICHIE GOES WEST.

Will Inspect the Balaklala-Contents Of a Recent Report.

Captain Duncan MacVichie has gone to California to make an inspection of the properties of the Balaklala Copper company. He will be gone about ten

On his last trip, Captain MacVichie On his last trip, Captain MacVichie made an exhaustive examination of the mine and in his report to the head officials of the company stated that there was exposed an ore body which contains fully 540,142 tons of ore, with 342,307 tons of probable ore in sight. He estimates that from the entire uncovered tonnage that can be mined, a profit of \$3,169,756 can be obtained even with copper at 15 cents per pound, while the same volume of ore will earn the company \$4,314,293, with copper at 18 cents, and \$5,077,611 with the market at 20 cents.

Weil tunnel ore body contains The Weil tunnel ore body contains 511,413 tons of actual ore and 698-587 tons of probable ore. This can be mined and treated at a profit of \$7,194,660 with copper selling at a profit at 20c.

These ore bodies are reported as being strong and very persistent. There are also excellent possibilities of developing other large bodies in the near future. other large bodies in the hear future.

The mine is thoroughly equipped and provided with all the necessary buildings for the handling of a large output. By February, it will be connected with the smelter by an aerial tramway by means of which 75 tons of rock an hour can be handled. The smelter will be completed in May or June, and will have a capacity of between 900 and 1,000 tons per day. tons per day.

THE GOLDFIELD STRIKE.

Trouble in Big Nevada Camp Has Been Brought to End.

Goldfield, Nev., Jan. 10.—The miners' strike is considered settled. At midnight tellers were still counting the votes behind closed doors but men who votes behind closed doors but men who came through the ante room stated that the majority of votes favored accepting the mine operators proposition of \$5 per day for miners and skilled help, with \$4.50 for laborers. The total number of votes cast out of a membership of 3,500 union men were in the neighborhood of 1,700. Returns from the Diamondfield section are not yet in, but that strike is over and that all mines will reopen in a few days is practically assured. In anticipation of retically assured. In anticipation of re-newed mining activity there was a lively session on the stock exchange this evening and all securities show a big advance.

UTAH CON. AT TOOELE.

Citizens of That Town Welcome Coming of Semlter.

ing of Semlter.

Manager R. H. Channing of the Utah Consolidated Mining company spent yesterday in Toocle and reports that the citizens of that enterprising town are giving the company every assistance possible and indications at this hour are that the Pine canyon site will be the permanent location of the proposed new \$1,000,000 smelter. Mr. Channing says land owners are placing a fair valuation on their lands in the options given to the company.

As stated in the "News" sometime ago the Utah Consolidated company gives properly owners the option of accepting so much cash as a smoke easement on their premises or selling their lands outright to the company for a price agreed on now anytime after the smelter has been in operation two years.

ter the sine ter has been in operation two years,

Mr. channing does not believe the plant located in Pine canyon will do any damage to the surrounding agricultural districts and others are of the

same opinion.

Mr. Channing's successor. J. B.
Risque, has, wired that he will leave
Calumet, Michigan, for this city to assume his new duties not later than the

SILVER KING LITIGATION. Only the Final Details to be Arranged

To End Difficulty. With the exception of the passing of deeds and the compliance by the Silver King company with certain conditions mentioned in the agreement for the settlement of the litigation between it and the Magnolia-St. Louis Mining company, the trouble between those corporations is a closed incident.

There are lots of details to be attended to yet; such as the examination of abstracts of the property of the Magnolia-St. Louis company. Then Manager McGregor of the latter must get the shareholders of his company togeth-

er for the purpose of ratifying the deal; which there is no doubt they will do within the next two weeks. The ending of this controversy has been the cause for much rejoicing in Park City and coupled with the other recent moves made there recently the outlook for the future of the Park City camp is exceedingly bright.

TROUBLE IN PERU.

Natives Get Boisterous at Cerro de Pasco Copper Mines.

Lima, Peru, Jan, 10.—News of serious troubles at the mines in the interior has reached here. The employment of Americans at the mines has caused great dissatisfaction and resulted in a riotous demonstration on Saturday. The tunnel of the Cero de Pasco Mining company was dynamited and several of the miners assaulted. The police stopped the attack.

KING GETS IN LINE.

Wages of Miners Advanced Twenty-Five Cents a Day.

information comes from Park City that the management of the Silver King Mining company has followed the rule laid down by other operators at Park City and has granted its employes a raise in wages to the amount of 25 cents per day. The schedule is effective from the 1st inst.

EQUIPMENT GOES WEST.

Yerington Copper Company Sends Out Compressor Plant.

The management of the Yerington Copper company yesterday had forwarded to Yerington a car load of mine equipment, the order consisting of an air compressor, hoist, machine drills, mine cars, etc. It is the intention of the company to sink the shaft 300 feet and if the railroad makes prompt delivery it is likely that everything will be running smoothly by the 1st of February.

RICH GOLDFIELD ORE.

(Special to the "News.")
Goldfield, Nev., Jan. 10.—Word has been received from the Selby smelter in San Francisco, that 50 tons of ore shipped from the Hays-Monnette lease on the Mohawk this week returned \$700,000. The Frances-Mohawk shipped 25 tons that returned \$250,000. This is an unprecedented record for any single property in the history of the mining world.

WONDER A GOOD CAMP.

Goldfield, Nev., Jan. 10,-A letter from Goldfield, Nev., Jan. 10.—A letter from Wallace MacGregor, consulting engineer of the Nevada Condors of Fairview and the Joe Wonder Mining company of Wonder, states that mining operations in these two camps are assuming large proportions and many companies have opened large ore bodies since his last visit to the district a month ago. Both districts are expanding in size, and strikes have been made that stamp both as permanent mining camps. The showing on the Nevada Condors is exceedingly flattering.

CONCENTRATES.

J. E. Caine has gone to San Francis-o on mining business.

The annual meeting of the Cedar Mining company has been called for Charles H. Scheu departed last night for Good Springs, Nevada, to look after mining interests.

Thomas Weir, and wife, have gone east. They will stop first at Chicago and visit some of the southern cities before returning. The coal famine at the Consolidated Mercur properties has been relieved to the extent that three roasters in the

mill are now in operation. Gid R. Propper is up from the La Sal mining district on a brief business trip. He says conditions are looking better in his section.

The ore and bullion settlements reported late yesterday by McCornick & Company were: Crude ore and concentrate, \$26,000; base bullion, \$100,000.

Manager Lafayette Hanchett of the Boston consolidated Mining company, has returned from Bingham, where he has been giving his personal direction to mine affairs for several days.

The directors of the Yankee Consolidated Mining company met yesterday afternoon and posted the initial dividend for this year; the amount being 3 cents a share, or \$15,000. Date of payment Jan. 21.

THE MARLBOROUGHS.

Rumors of Reconciliation and of Separation Papers Signed.

Aration Papers Signed.

London, Jan. 3.—The presence of some members of the family of the Duchess of Marlborough, who was Consucto Vanderbilt, and the expected arrival of Reginald Vanderbilt and others, has led to various reports concerning the differences between the duke and the duchess, one announcing their reconciliation and another that a deed of separation had been signed.

As a matter of fact, the situation today as it was announced in the dispatches of Jan. 4. There has been no reconciliation and there is not likely to be, although some friends of the Mariboroughs are still working to that end. The suggestion that a deed of separation has actually been signed is also untrue. There have been almost continual exchanges, however, between the legal representatives of the pair, and some definite legal action fixing the future relations of the couple is expected shortly. It is believed that this action will involve the custody of the children and financial arrangements.

As soon as this step is completed the duchess, accompanied by her mother and brother, will go on a trip to the Mediterranean.

Engineer Hildebrand and Conductor Hoffmeir Released on Bail.

Washington, Jan. 10.—Engineer Hildebrand and Conductor Hoffmier, of the crew of the equipment train, who were arrested last night after the coroner's lury inaulty into the Terra Cotta wreck had held them, with six others, responsible for that wreck, have been released, the former under \$10,000 bond and the latter under \$5,000.

GAINS AND LOSSES SMALL.

Several Carloads of Utah and Idaho Special Stocks Held General List Firm -Reading Was Sold for Realizing. particularly varied, but they are plen-

> New York, Jan. 10 .- The light opening transactions in stocks moved prices but narrowly and the small gains and losses were quite evenly divided. Slight reac tions falled to bring out much stock and a rally was led by St. Paul and the Hill stocks. The gains of consequence included a point in New York Central, 11/2 in Great Northern, 1% in Northern Pacific, 2 in St. Paul and 3½ in Northwestern. Some of the losses in the obscure stocks

were equally large, The general list was held firm by the

of vegetables from the coast are less in volume today, by reason of the floods in the Golden state. Finnan haddles and smoked salmon are arriving in fine condition, from the east, also, Chinook salmon. The egg market is getting weaker, as Utah hens are reforming and attending better to their duties; but if a sudden cold snap comes on, the supply is likely to diminish.

The feature of the fish market is the arrival of a 307 pounds fish of the black bass family, known as a June fish, from Galveston. It was caught with a two-inch wire hook, and shipped immediately to this city. The monster will be cut up tomorrow, and sold at 17½ cents per pound. The pirces obtaining in today's local markets are as follows: The general list was held firm by the strength of special stocks, but moved sluggishly. Northwestern rose 5, St. Paul 2½, Corn Products preferred 1½ and Atchison preferred, Great Northern Ore Certificates and Amerikan Linseed Oil 1.

Bonds were steady.

There was a drop of 1½ in Missouri Pacific in the face of the advancing tendency, Important gains were limited to a few stocks, the general market trailing, along in a perfunctory manner. Reading remained in keen demand, touching 138½. Great Northern preferred and Pressed Steel Car got up 2, Lucomotive 1½, and Denver & Rio Grande preferred 1. Westinghouse Electric opened 4 points down. Realizing sales in Reading, which cost that stock a point, sufficed to stop the rise elsewhere but the general market only gave way a triffe, Later there we a 4n other slight raily in which St. Paul r. ached the highest. Canadian Pacific lost 1.

PRODUCE. CHICAGO.

CHICAGO.

Chicago, Jan. 10.—There was a general demand for wheat in the local market today but offerings were light. The tone of the market was firm from the start. The buying was largely due to firm cables and small receipts in the northwest. May opened \(^4\) to \(^3\), higher at \(^7\)\(^6\)\(^6\)\(^4\), \(^7\)\(^7\)\(^7\).

The corn market was firm on covering by shorts who were induced to buy because of smaller local receipts than had to expected. An advance at Liverpool as heiped to strengthen the local market May opened unchanged to \(^4\), higher at \(^4\), oats were firm in sympathy with wheat and corn. There was a fairly good general demand but offerings were scattered. May opened a shade higher at \(^3\)\(^4\), and sold at \(^3\)\(^6\)\(^6\)\(^4\), and sold at \(^3\)\(^6\)\(^6\)\(^6\)\(^6\)\(^6\)\(^7

TODAY'S.

DIAMOND INDUSTRY.

Hereafter Stones May be Cut and Polished in South Africa.

New York, Jan. 10.—Maiden Lane diamond dealers were notified yesterday in a message from South Africa that a movement has been begun there to have the stones cut and polished in South Africa instead of in Europe and the United States.

The men who propose to establish

south Africa instead of in Europe and the United States.

The men who propose to establish a diamond cutting industry in South Africa are trying to induce the Cape Colony government to impose on rough diamonds an export duty so large as to give an advantage to the home lapidaries. The expectation is that if this is done, the diamond cutters of the world will then move their factories to the vicinity of the mines.

Of 15,000 workmen now employed in the world's diamond factories, 450 work in New York. Several of the manufacturers of this city who were seen yesterday, said that they had no fear of the industry leaving this city.
